## PITCH POCKET FILLER SBS MODIFIED BITUMEN

**Description:** PITCH POCKET FILLER is a superior grade aluminium coloured solvent-based mastic containing bitumen modified with SBS synthetic rubber and fibres.

PITCH POCKET FILLER is specially formulated with a high level of polymer and special adhesion promoters to avoid common problems such as shrinking, cracking and debonding from pitch pocket walls. Upon application, the leafing aluminium pigmentation migrates rapidly to the surface so that ultra violet protection is maintained for the complete life of the product.

PITCH POCKET FILLERS lasts longer with less maintenance, remains flexible at low temperatures and will not flow through cracks in the containment box.

**Application:** Apply PITCH POCKET FILLER by trowel in a clean pitch box. Metal surfaces must be cleaned with solvent and be free of grease and oil.

For pitch boxes larger than 10 cm (4 in.) in height, it is recommended not to use more than 10 cm (4 in.) of PITCH POCKET FILLER. Use an appropriate filling material.

Shape the surface to avoid standing water.

### Properties:

**PITCH POCKET FILLER meets the requirements of the  
CAN/CGSB-37.29-M89 standard**

Properties	PITCH POCKET FILLER
Specific gravity at 20 °C (kg/l)	1.00
Colour	Aluminium
Application temperatures	0 to 35 °C (32 to 95 °F)
Solids by weight (%)	76
Flash point (ASTM D93)	25 °C (77 °F)

(All values are nominal)

**Packaging:** 10 L pails.  
Shelf life: Up to 12 months in original sealed containers.

**Cleaning:** Tools can be cleaned with petroleum solvents such as mineral spirits, varsol, xylene, etc.

**Precautions:** PITCH POCKET FILLER is a flammable product. Store in a cool, dry area.  
CONSULT THE MATERIAL SAFETY DATE SHEET PRIOR TO USE.

**NOTE:** SOPREMA INC. may modify the composition and/or utilisation of its products without prior notice. Consequently orders will be filled according to the latest specification.
