

# SIMPLIFICATION OF THE ROOFING PRODUCT LINE

WATERPROOFING

Discover at a glance all the major changes we've made to our roofing product line! This update consists mainly of name changes to improve the consistency of our products on the market and to reduce inventory levels.

1. Streamlining of the High Performance composite cap sheets into three names: SOPRAPLY TRAFFIC CAP, COLPLY TRAFFIC CAP, and SOPRASTAR.
2. Modification of the names to be more consistent with the type of reinforcement used.
3. Elimination of numbers and many irrelevant suffixes in names.
4. Modification of all the names of the laminated panels for a simple and uniform structure (SOPRASMART) in order to facilitate understanding.
